THE ART OF CONVERSATION: LITERARY EDITION & TRAVEL EDITION

Keith Lamb & Louise Howland

Packed with hundreds of entertaining and thought-provoking ideas to get discussions firing, these two sets of card games are just the thing to reinvigorate the dying art of conversation. Ideal for book clubs, writing groups and social gatherings, the aim is to help articulate opinions, exchange views and stimulate conversation rather than play a competitive quiz. The literary edition asks open-ended questions like 'Is there a book that took you out of your comfort zone?' or 'What book best describes your relationship?' to get readers thinking about the books that matter to them. Similarly, the travel edition promotes discussion about culture, language, travel experiences and tips, posing intriguing questions like 'Where is your ideal pristine wilderness?' and 'When have you felt yourself to be an innocent abroad?'.
